

Dear Neighborhood Leader,

This winter season, NYC Service is hoping to enlist community organizations in an effort to help homebound seniors and the disabled clear the snow in front of their homes. Given your group's role with seniors, its community reputation, and its ability to engage volunteers, we'd like to ask for your help.

Please join us in our continued effort to make our City safer for all people while promoting our "neighbors helping neighbors" policy. NYC Service has already worked with the Department for the Aging to identify seniors that would need this last resort service. NYC Service is currently building a list of community groups and organizations in order to deploy volunteers to meet the needs of seniors in their neighborhood.

If your volunteer group or community organizations would like to help the elderly and the disabled in your neighborhood, please send an email to Gary Johnson at gjohnson@cityhall.nyc.gov.

Thank you,

NYC Service

Gary Johnson
