Subject: September 30, 2008: West Niles Virus Update all 5 boroughs of New York City

Dear Colleagues,

The New York City Department of Health and Mental Hygiene is committed to ensuring that New Yorkers, particularly seniors and other groups at high risk, protect themselves from West Nile Virus. We have detected West Nile Virus activity in the form of an infected mosquito in the zip codes:

- **Staten Island (10301, 10304, 10305).**
- **Queens (11378, 11691).**
- **Brooklyn (11215, 11232).**
- **Bronx (10465, 10473).**
- **Manhattan (10128)**

Kindly share this information with civic groups, schools, community centers, libraries, churches, senior centers, and organizations and members of your community.

If you have any questions about West Nile Virus, please contact our office at (212)788-4735. Additionally, information on West Nile Virus is always available online at <http://www.nyc.gov/html/doh/html/wnv/wnvspray.shtml>.

Thank you.

Tammy Lee Christensen, MPH
Community Affairs Coordinator
Bureau of Intergovernmental Affairs
