

**Subject:** Tentative Full Roadway Closure - 94th Street b/t 2nd Ave & 3rd Ave - Saturday, May 5, 2012

**FDNY-Battalion #10, NYPD-19<sup>th</sup> Pct., Community Board #8**

Cruz/Tully JV, the contractor on the Second Avenue Subway/96<sup>th</sup> Street Station project, is scheduled to construct a section of the subway wall at 94<sup>th</sup> Street and 2<sup>nd</sup> Ave, West Side. We are scheduling to complete this work on Friday, May 4, 2012 but we have been encountering some unforeseen underground obstructions during the excavation. If we cannot complete this work by Friday, we have requested that the MTA and the NYCDOT issue a street permit to close 94<sup>th</sup> Street on Saturday, May 5, 2012.

The request will include the full street closure of 94<sup>th</sup> Street b/t 2nd Ave & 3rd<sup>d</sup> Ave beginning at 8AM and completing at 7PM. Emergency Access, as well as local businesses, residents will be able to access the street at 3rd Avenue & 94<sup>th</sup> Street. A Flagperson will be at this location to assist in traffic operations.
