Re: MTA Contract C-26005 (Contract 2A)
Second Avenue Subway / 96th Street Station
**Full Roadway Closure on East 95th Street, Second Avenue to Third Avenue;
Permit Extension through January 31, 2011**

Dear Ms. Ludorf:

Please note that EE Cruz / Tully Construction Co., Inc. (CTJV) is in Contract with the MTA for the referenced project. We are currently working under Stage 2 of the Contract which includes the construction of new utilities. The construction of a gas main on the west side of Second Avenue at East 95th Street is scheduled to begin.

Construction of the gas main will require the full roadway closure of East 95th Street from Second Avenue to Third Avenue. The times of the closure period will be from 8:00AM through 4:00PM, Monday through Fridays. The street will be opened at the end of each daily work shift. The work is projected to be completed in approximately one week.

This work is expected to be completed by January 7, 2011. However, we anticipate beginning the construction of sewer work and water main work so we will request the permit through January 31, 2011. However, we will only close the street when the work is ongoing and will keep the street open if we are not working in this area.

During this work, we will be placing a flag person at the closure at Third Avenue to allow vehicle entry to the various businesses on East 95th Street and will assist all motorists to exit the street during the closure periods. Pedestrian traffic will not be affected.

We will notify the FDNY, NYPD, EMS, and all other related agencies of this work. We will take every effort to minimize the impact caused by this closure and will keep you updated of our work progress.

If you have any questions, please do not hesitate to contact us at (212) 348-6394.

Very Truly Yours,

John F. McCarthy
