2. Elected officials will be giving their updates on the East 91st Street Marine Transfer Station issue.

Points from meeting:

Council Member Ben Kallos spoke in opposition to the site

Should an audit of the project be done, concerning costs & viability?

There were many discussions & opinions voiced, with some wanting to stop the project completely, & others accepting the fact that the project is a "done deal" & wanting to make sure that future problems are addressed now, rather than at a later stage when it may be too late.

Safety problems have arisen & CB8 chair to write a letter concerning these problems & asking to halt construction during summer months when children are present in greater quantity & frequency.

Some permits are up for renewal & everybody will be keen to see the outcome.
