

# Be Part of the Restart

**Wear a mask or a face covering ALWAYS** - they are also required when entering a place of business  
**IT IS THE LAW**

**Continue social distancing**  
6 feet apart

**Sanitize.** Many businesses will have sanitizer stations available, but carry your own if you can.

**Stay home** if you feel ill.

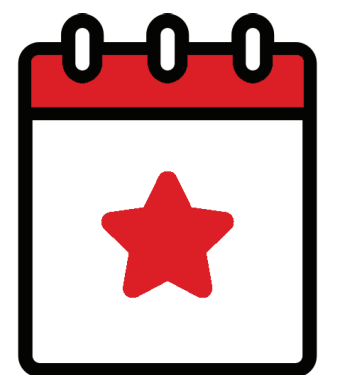

**Shopping online** from local businesses is investing in our local communities.

**Wanna dine? Call the line!** Call ahead to your local restaurant, diner or bar for pickup or delivery instead of using delivery apps.

**Make a reservation.** Once opened, hair salons, barber shops, restaurants, boutiques, beauty stores, doctors, dentists and more businesses will take reservations to space out their clients and plan their services.

**Plan ahead.** Give yourself extra time to shop or avail yourself of services and confirm business hours in advance.

**Practice patience.** Remember that the landscape for businesses and workers has changed.

**Help them, help you.** Ask the staff how to handle the merchandise so they don't need to unnecessarily quarantine or disinfect goods.

**Be kind and flexible.** Our businesses and other customers will appreciate it, especially if no one can see that you're smiling. Remember that businesses are very happy to have you back.

**We   
NYC**

**Be Part of The Restart - this is our shared responsibility!**
