Northwell Health Mission Statement

We strive to improve the health of the communities we serve and are committed to:

- Providing the highest quality clinical care
- Educating the current and future generations of healthcare professionals
- Searching for new advances in medicine through the conduct of biomedical research
- Promoting health education
- Caring for the entire community regardless of the ability to pay

Northwell in NYC

Hospital & Outpatient

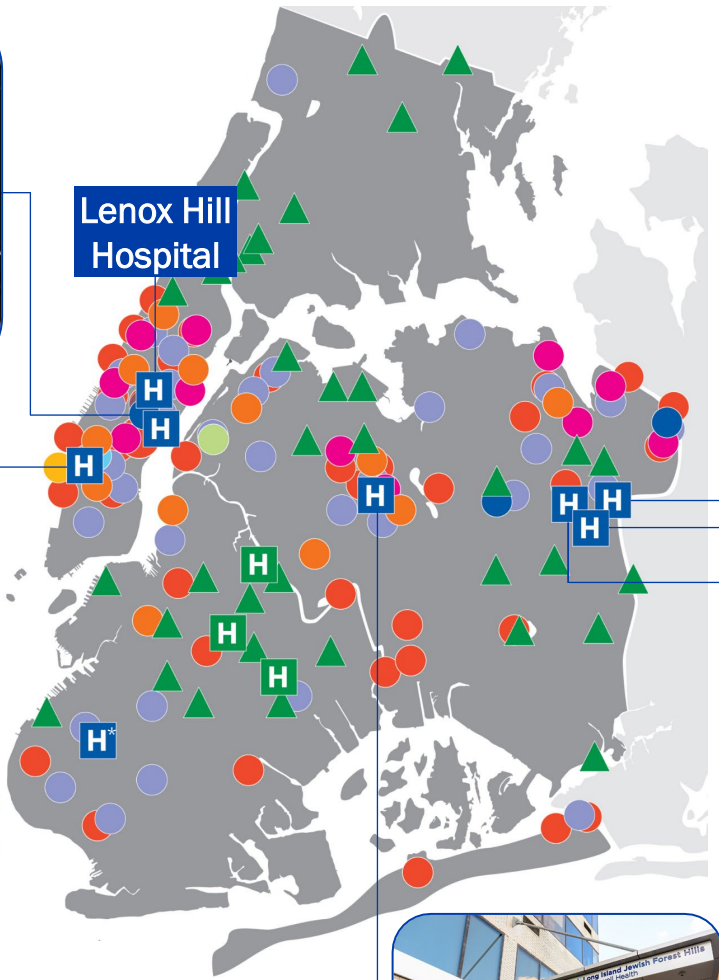

Hospital

Northwell hospitals and ambulatory surgery facilities care for more NYC residents than any other health system.

Supporting NYC's Healthcare Ecosystem

- H Hospitals
- H Safety Net Partners
- Ambulatory Surgery Centers
- Cancer Centers
- ▲ Community Partnerships
- Dialysis Centers
- Imaging Centers
- Lab Patient Service Centers
- Primary Care Locations
- Specialty Care Locations
- Urgent Care Locations
- * Affiliate

Lenox Hill Hospital

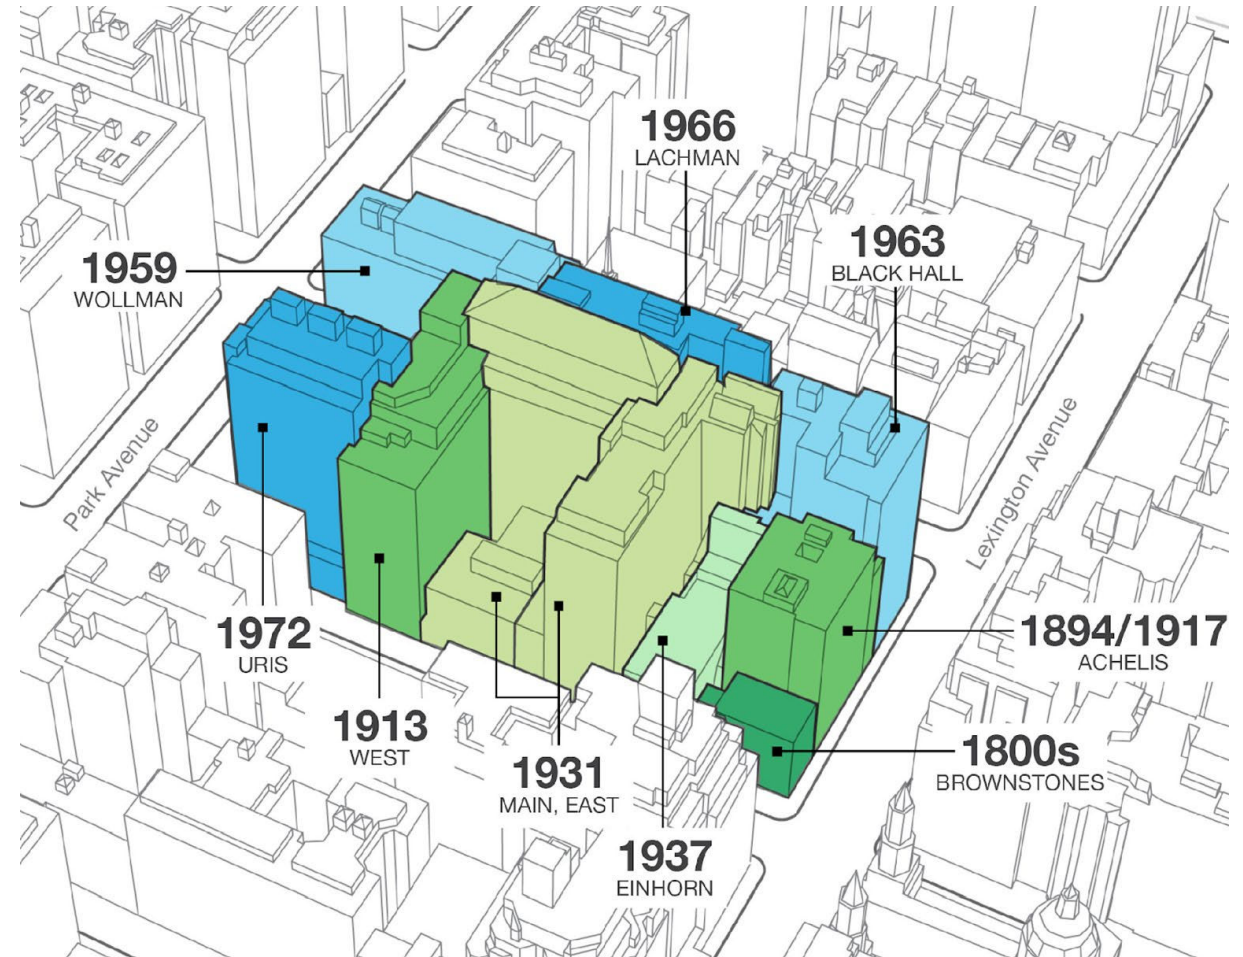

Serving NYC for over 160 years

- 450 bed acute care facility
- 144,000+ patient visits annually, including:
 - 4,000+ deliveries
 - 37K+ treat and release / 50K+ total emergency room visits
- Serving patients from 241 different zip codes throughout the five boroughs
- Employing 4,000+ team members
- Recognized for highest quality care
 - Top 50 ranking nationally in nine specialties (U.S. News & World Report)
 - Top 50 Best Hospitals in U.S. (Healthgrades)

To continue to provide highest quality care, the Lenox Hill Hospital facility must be reimagined

- 10 separate buildings stitched together over 100+ years
- Most recent building was constructed over 50 years ago
- Significant improvements since 2010, but physical limitations due to size, configuration, and ceiling heights
- Majority of beds are in shared patient rooms
- Operating rooms are undersized and poorly configured for future technology and practices
- Emergency department is undersized for current and projected need

Revitalization Drivers: Single-Bed Patient Rooms

Existing Patient Room

- Double Occupancy
- Increased risk of infection
- Not designed to current code
- No caregiver zone
- No family space

Industry Standard Patient Room

- Single Occupancy
- Caregiver zone
- Family space
- Patient confidentiality

Revitalization Drivers: State-of-the-Art Operating Rooms

Existing Operating Room
(300 - 500 SF per OR)

Industry Standard Operating Room
(600 - 1,000+ SF per OR)

- Separation of restricted circulation
- Dedicated path for sterile supplies
- Rooms sized to support image-guided procedures and robotics
- Control rooms and dedicated space for IT equipment

Revitalization Drivers: Right-Sized Emergency Department

Existing Emergency Department

- Primarily composed of curtained treatment bays
- Limited isolation provisions for infectious or immuno-compromised patients
- "Landlocked" within the existing hospital making growth and expansion extremely difficult

Industry Standard Emergency Department

- Private exam rooms for comfort, safety, and privacy
- Isolation for infectious or immuno-compromised patients
- Dedicated imaging rooms
- Expanded mass casualty response area

Revitalization Drivers: Addressing Access & Street Environment

A Day in the Life: Patient, Care Team, Community

Patients & Families

- Better outcomes
- More dignified care
- Less stressful/healing environment

Care Teams

- More time delivering patient care
- Addressing a wider range of patient needs
- Better work environment conditions/mental health

Neighborhood & Community

- More comfortable, less congested sidewalks
- Reduced hospital-related activity on the street; more within hospital building
- Improved subway access

Project Overview

- Renew Lenox Hill Hospital to meet the healthcare needs of the next generation
 - Single-bed patient rooms
 - State-of-the-art operating rooms
 - Right-sized Emergency Department
 - Dedicated Mother-Baby Center
 - Flexible design
- Improve vehicular and pedestrian circulation and safety for patients, staff, visitors, and the community
 - Internal ambulance bay
 - Expanded loading area
- Improve access to the 77th Street subway station
- *Maintain ongoing hospital operations throughout construction*

Original Proposal

Original Proposal

OUTREACH

- Community Board 8 meeting #1 *(Mar 28, 2019)*
- LHH Redevelopment Open House *(Sep 12, 2019)*
- Community Board 8 meeting #2 *(Sep 19, 2019)*
- Borough President Brewer / Council Member Powers Task Force *(Dec 2019 – Nov 2020)*
 1. Introducing Plan to Renew Lenox Hill Hospital
 2. Program and Requirements of a State-of-the-Art Hospital
 3. Zoning, Bulk, and Building Height
 4. Bed Need Methodology
 5. Project Status & COVID Response
 6. Revised Proposal
 7. Feedback Session

FEEDBACK

- General support of Lenox Hill Hospital as neighborhood institution
- Recognize need for hospital revitalization and contemporary hospital space
- Residential component should not be included as part of project
- Height of proposed hospital building on Lexington Avenue should be reduced
- Existing zoning bulk controls should be followed
- Reduce construction duration

Revised Proposal

ORIGINAL

REVISED

■ Public Lobby ■ Diagnostic & Treatment ■ Inpatient Beds ■ Support ■ Mechanical

Revised Plan Concept

- Eliminates residential use
- Reuses more of existing hospital and significantly reduces extent of renovations
- Reduces new Lexington building height by 80 feet

Proposal

Program Summary

	CURRENT HOSPITAL	PROPOSAL
Patient Beds in <i>Single-Bed Rooms</i>	172	475
Patient Beds in <i>Shared Rooms</i>	278	0
Total Patient Beds	450	475
Operating Rooms	25	30
Emergency Department Treatment Positions	34	48
Ambulance Bays	0	6
Imaging	20	17
Interventional	10	10
Labor, Delivery, Recovery	12	13
Receiving Bays	3	7

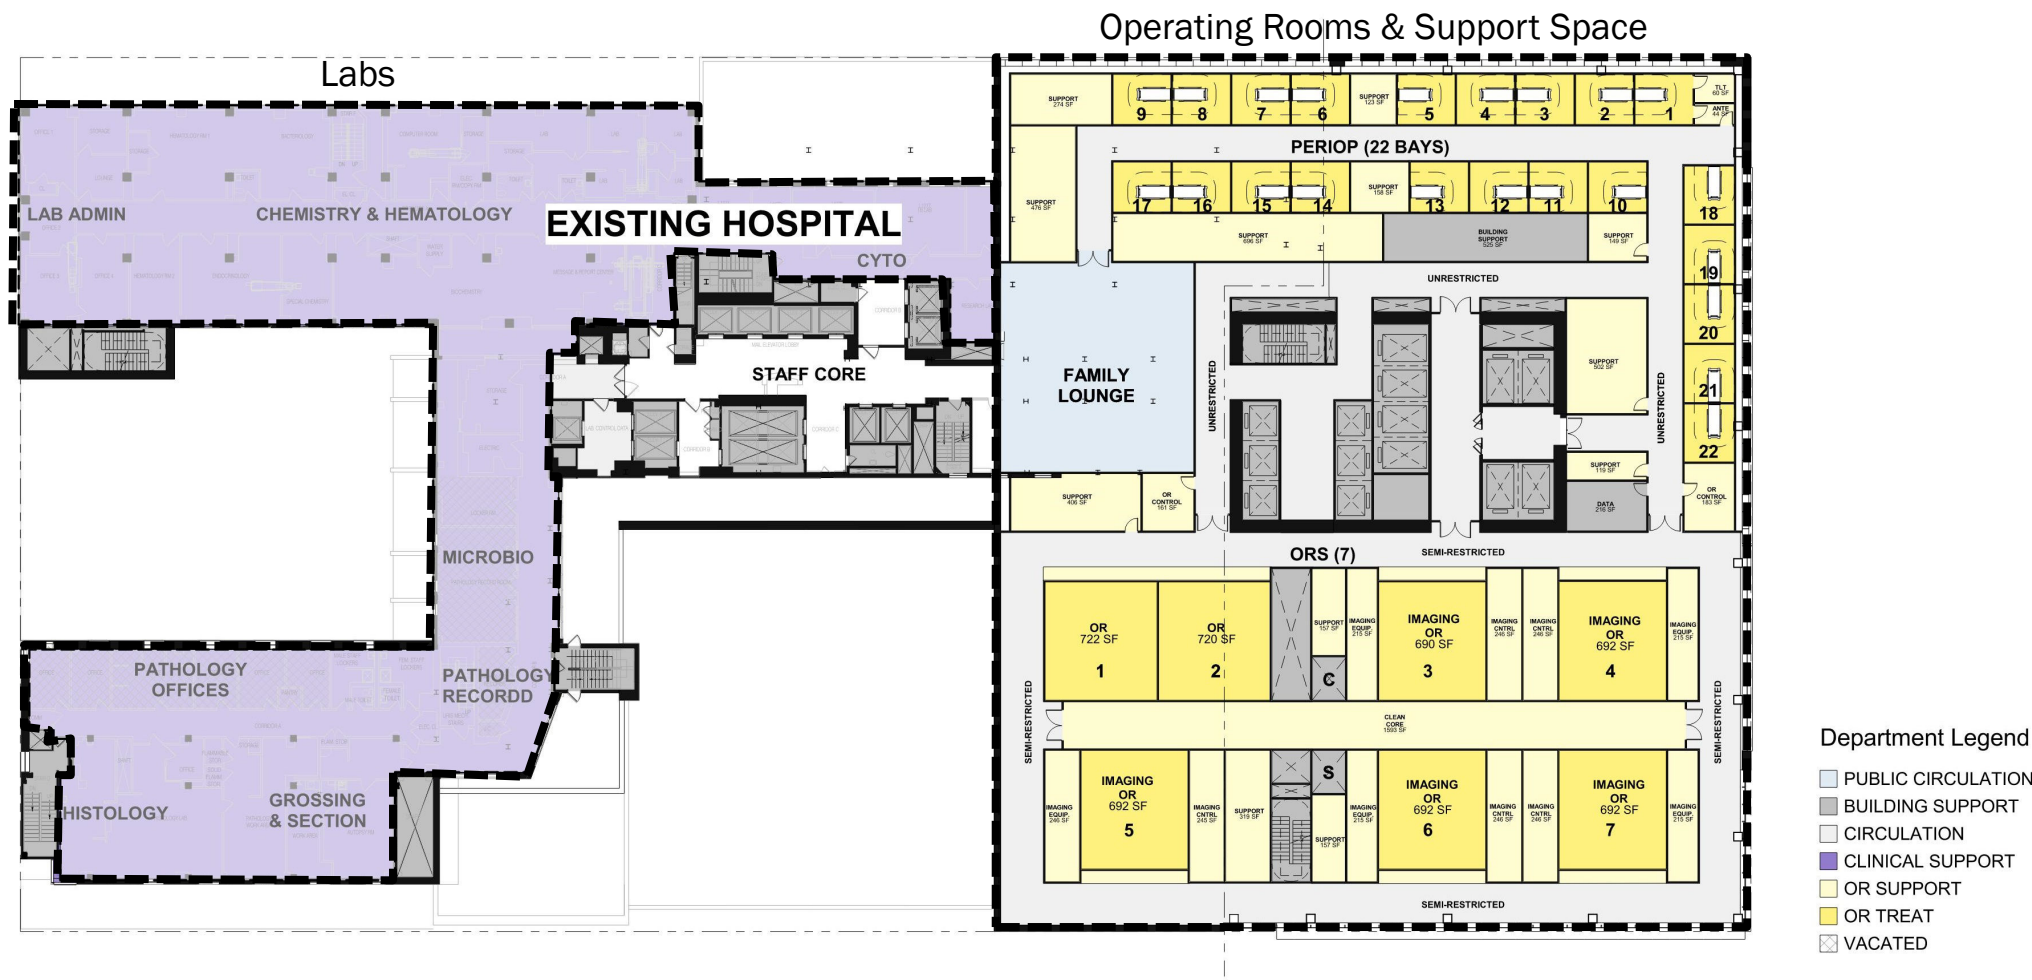

Ground Floor

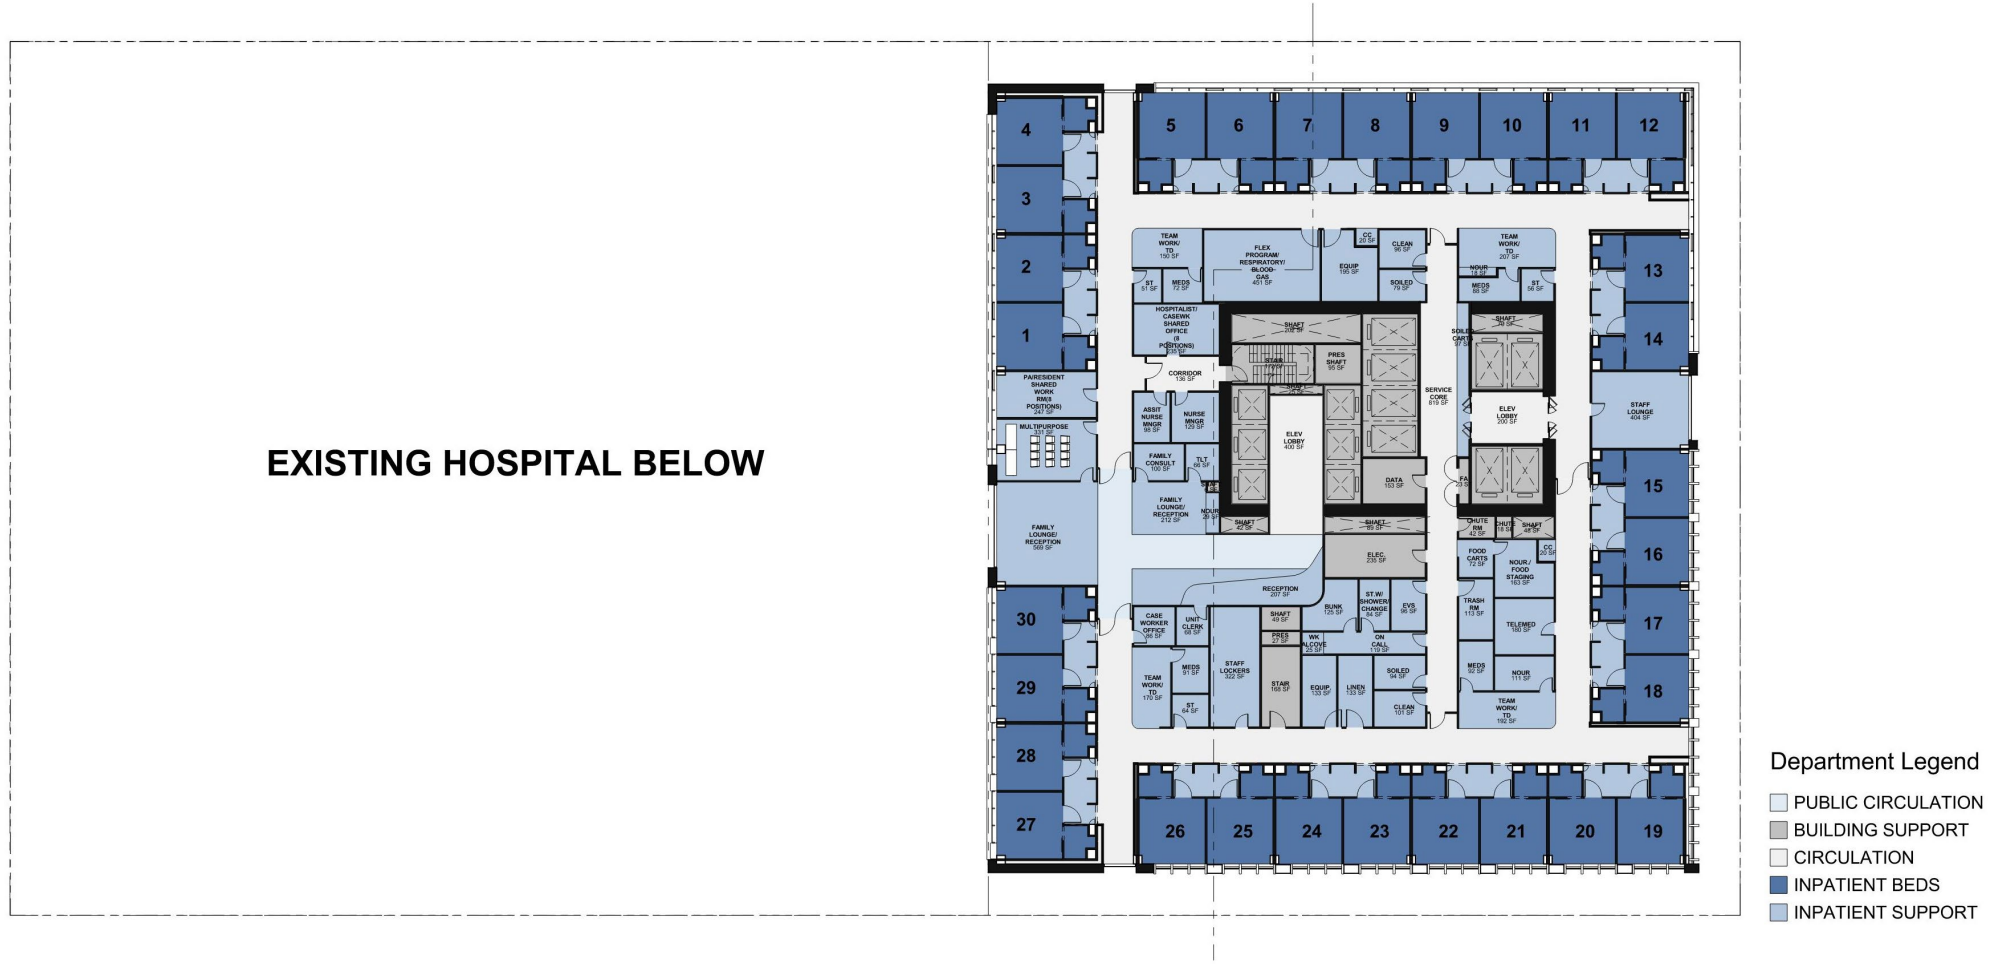

Emergency Department

ORs and Labs

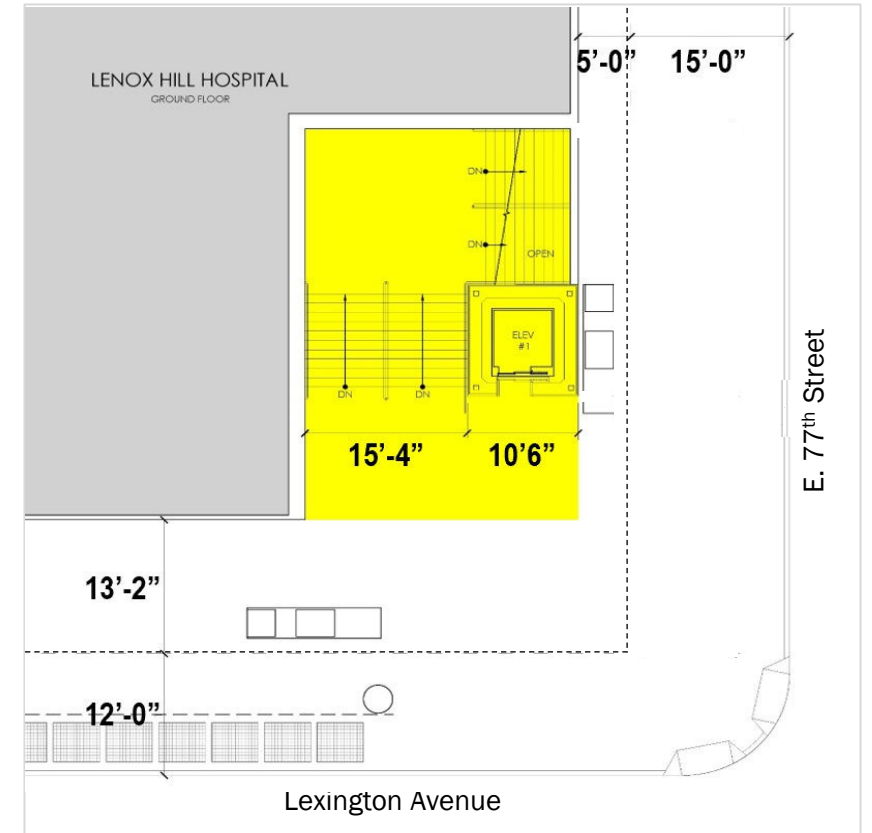

Typical Patient Floor

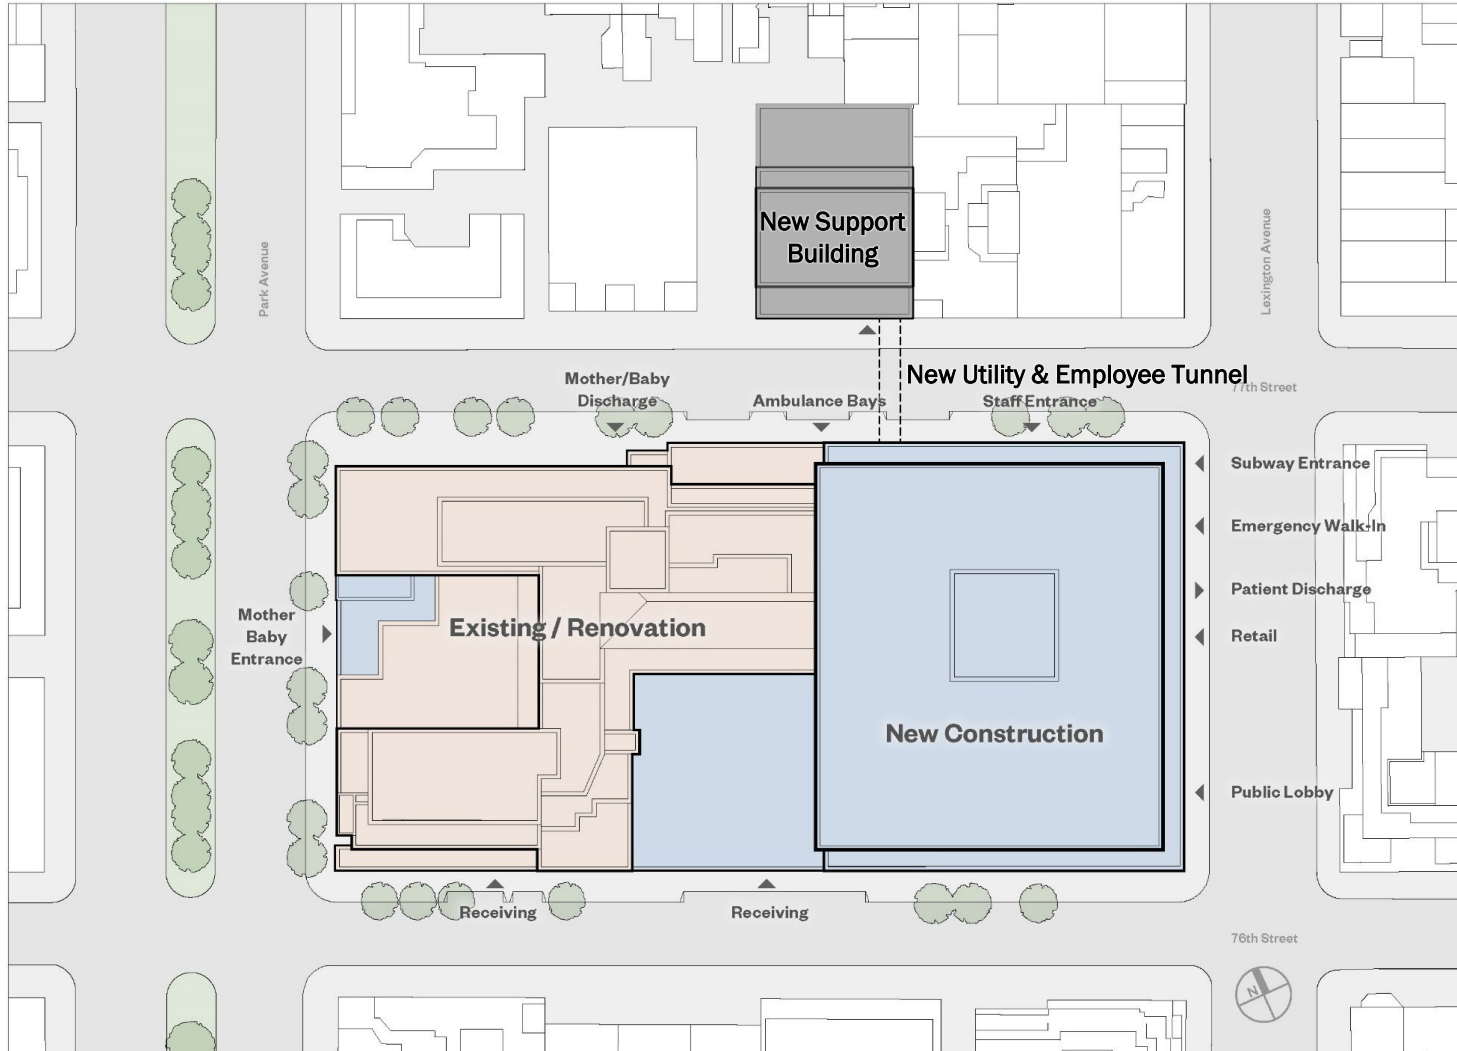

Subway Improvements

New elevator access, widened stairs, covered entry, and widened sidewalk

77th Street Building & Utility/Employee Tunnel

New Support Building

- Currently owned site (111-115 E. 77th Street)
- As-of-right building
- 26K Zoning SF, six stories (incl. mechanical penthouse)
- Education, administrative uses with below grade utilities to serve support building and hospital building

New Utility and Employee Tunnel

- Provides protected connection for utilities and hospital team members
- Requires approval of revocable consent from DOT

Neither requires a land use approval subject to ULURP, therefore they are not included in the ULURP application.

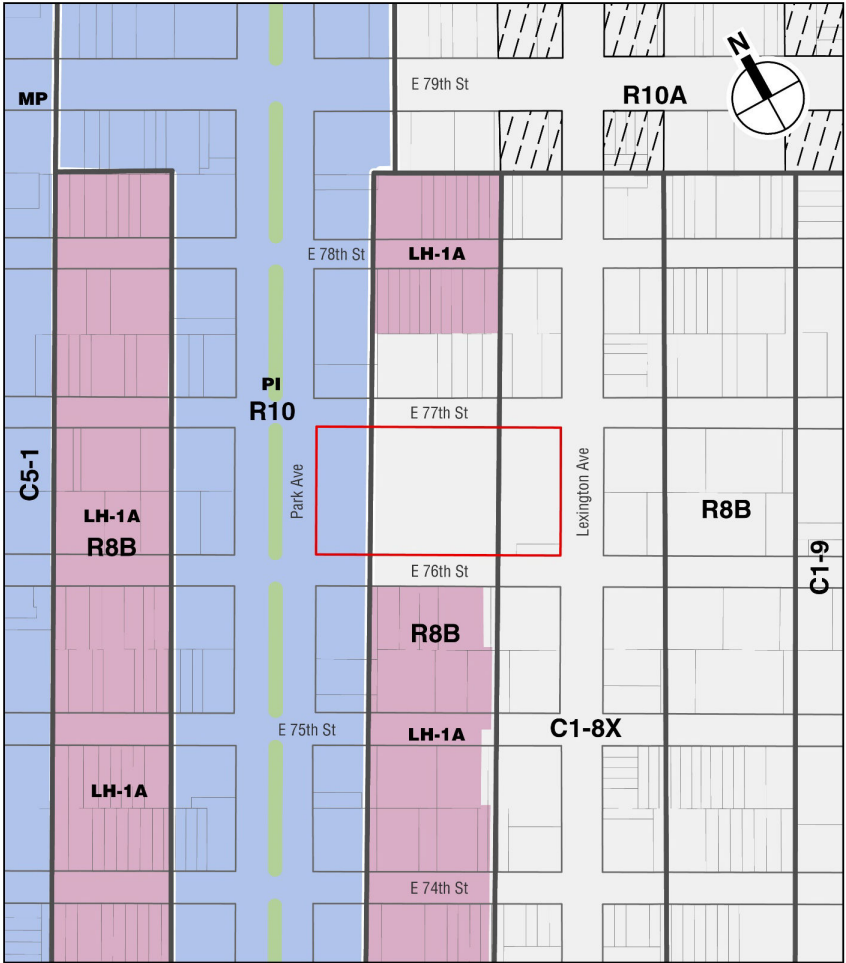

However, to be conservative, both will be included in the Draft EIS.

Summary of Actions

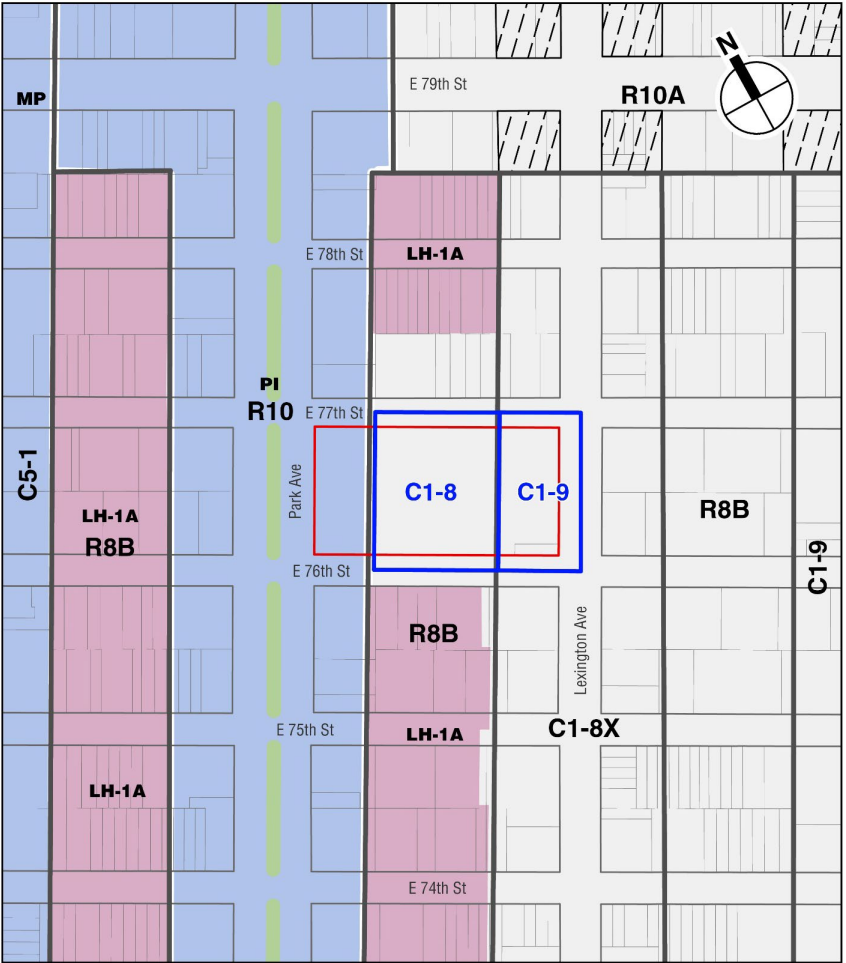

1. Zoning Map Amendment
2. Zoning Text Amendment
3. Hospital Special Permit
4. Subway Improvement Approvals

Zoning Map Amendment

Current Zoning Map

Proposed Zoning Map

- Hospital Block
- Zoning District Boundaries
- C1-5 Commercial Overlay District
- Park Avenue Malls
- Limited Height District (LH-1A)
- Special Park Improvement District (PI)
- Special Madison Avenue Preservation District (MP)
- Proposed Zoning

Zoning Text Amendments

1. Amendment to Article VII, Chapter 4 to create a new special permit (ZR Section 74-904) to allow a floor area bonus and modification of bulk regulations to facilitate the enlargement of Use Group 4 hospitals where the existing facilities occupy a full block that is located in R9, R10 or equivalent Commercial Districts and partially within the Park Improvement District.
2. Amendment to ZR Section 66-513 allow the new special permit to be used in conjunction with a transit improvement bonus.
3. Amendment to ZR Section 92-041 to make the hospital special permit available in the Park Improvement District.
4. Amendment to Appendix F to make the rezoned area a Mandatory Inclusionary Housing Area - Option 1 and 2.

Hospital Special Permit

1. Allow a 20% (2.0 FAR) floor area bonus for the upgraded hospital.
2. Allow the project to incorporate 0.5 FAR of additional transit bonus.
3. Allow modification of height and setback and other bulk controls.
4. Establish a maximum envelope for development on the project block.

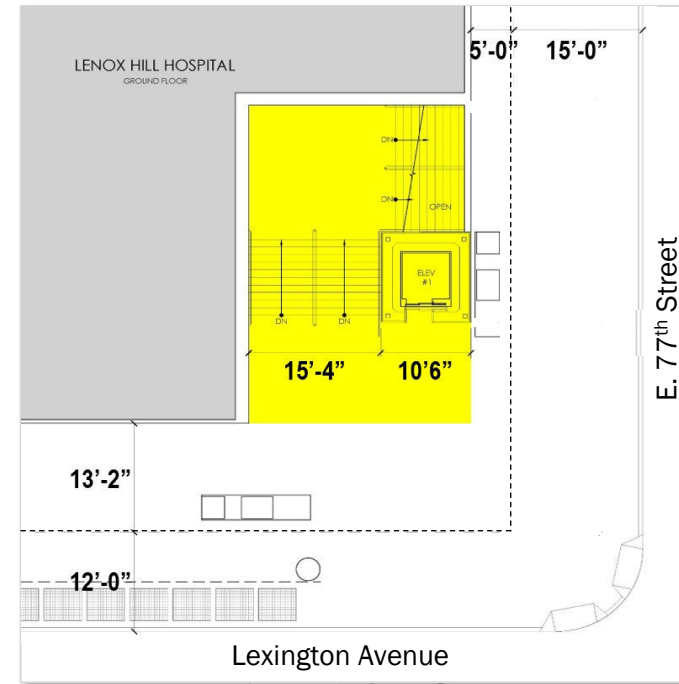

Hospital Special Permit

Transit Authorization and Certification

1. Dedication of on-site transit easement volume
2. Replacement of sidewalk stairs with new 15'-4" wide stairway within easement volume
3. ADA access between subway platform, mezzanine and street level
4. Floor area bonus of 0.5 FAR

Project Location

-  Project Site
-  Study Area (400-foot perimeter)

Project Increment

	Existing/ No Action Condition	With Action Condition	Increment
<i>Site 1: Hospital Block</i>			
Projected Development GSF	781,500 GSF	1,398,000 GSF	616,500 GSF
Projected Beds	450 beds	475 beds	25 beds
<i>Site 1a: East 77th Street Site</i>			
Projected Development GSF	23,200 GSF	46,000 GSF	22,800 GSF
<i>Total Project Site</i>			
Projected Development GSF	804,700 GSF	1,444,000 GSF	639,300 GSF
Projected Beds	450 beds	475 beds	25 beds

Note: Subject to refinement

GSF = gross square feet; square footages shown are approximate and include mechanical/utility and below grade space

DEIS CEQR Technical Areas

As described in the Draft Scope of Work, the analyses to be presented in the DEIS will assess future conditions without the Proposed Actions (the “No Action Condition”) and with the proposed actions (the “With Action Condition”) in 2036 (the “Build Year”).
