## The City of New York Community Board 8 Manhattan

April 20, 2023

Honorable Sarah Carroll, Chair NYC Landmarks Preservation Commission Municipal Building One Center Street, 9th Floor New York, New York 10007

**RE:130 East 67th Street (Individual Landmark)** - *David Bucovy Architect, PLLC* - An Italian Renaissance Palazzo-style apartment house designed by Charles A. Platt and constructed in 1907. Application is to amend the window master plan to allow aluminum-clad wood replacement windows in addition to wood replacement windows.

Dear Chair Carroll,

At the Full Board meeting of Community Board 8 Manhattan held on April 19, 2023, the board approved the following resolution by a vote of 43 in favor, 1 opposed, 0 abstentions, and 0 not voting for cause.

WHEREAS 130 East 67th Street, at the SE corner of 67th Street and Lexington Avenue, is an Italian Renaissance palazzo-style apartment building designed by the prominent American architect Charles A. Platt and constructed in 1907; 130 East 67th Street was designated an INDIVIDUAL LANDMARK in 2006;

**WHEREAS**130 East 67th Street is also known as the "Studio Building"; Charles A. Platt resided there until his death in 1933;

**WHEREAS** the building is crowned by a elaborate projecting cornice, the limestone elevations are proportioned and feature a rhythmic grouping of windows;

**WHEREAS** 130 East 67th Street established a Master Plan for window replacement in 2004; tenants are required to replace existing wood windows with in-kind wood windows;

**WHEREAS** a corner apartment on the 3rd floor would like to replace to the existing wood windows with aluminum clad wood windows;

**WHEREAS** the applicant, to make this proposed change to the windows, is requesting an amendment to the Master Plan that would allow aluminum clad wood windows; aluminum clad wood windows would provide a more long-lasting system of fenestration;

**WHEREAS** the proposed aluminum clad windows would match and respect the historic windows; the profile, the glazing and the muntins would remain the same; ongoing maintenance would be less since aluminum windows don't have to be painted as often;

**WHEREAS** the applicant was not able to state the exact number of windows at 130 East 67th Street but gave an estimate of 200 windows;

**WHEREAS** there are still original historic windows in the building; the proposed amendment to the Master Plan is motivated by a single unit in the building;

WHEREAS aluminum clad wood windows do not have the same heft as wood windows;

**WHEREAS** the fabric of the building should not be changed; it does not make any sense to have a window Master Plan where tenants have the option of either wood windows or aluminum-clad windows;

**WHEREAS** the 2004 window Master Plan did the right thing by mandating a wood window as the in-kind replacement window;

THEREFORE, BE IT RESOLVED THAT this application be disapproved as presented.

Please advise us of any action taken on this matter.

Sincerely,

cc:

Russell Squire
