RE: 1000 Fifth Avenue - The Great Hall of the Metropolitan Museum of Art - Interior Landmark *Brett Gaillard, Head of Capital Projects at museum presenting.* A Beaux-Arts style interior space designed by Richard Morris Hunt and constructed in 1905. Application is for installation of 4 digital displays: two in the north vestibule and two in the south vestibule.

Dear Chair Carroll,

At the Full Board meeting of Community Board 8 Manhattan held on September 20, 2023, the board approved the following resolution by a vote of 42 in favor, 0 opposed, 0 abstentions, and 0 not voting for cause.

WHEREAS The Great Hall is a Beaux Arts-style interior space designed by Richard Morris Hunt and constructed in 1905;

WHEREAS the applicant would like to install 4 digital display boards within the Great Hall - 2 on the north side of the Great Hall and 2 on the south side of the Great Hall behind the existing columns;

WHEREAS the display boards are now installed; the museum received a temporary permit from the Landmarks Preservation Commission to do this; the museum would like the screens to be permanent;

WHEREAS the display screens would not impact the historic fabric of the Great Hall; the screens would be attached to plaster only and could be easily removed;

WHEREAS the permanently installed screens at 6' wide x 3'6" high would be slightly smaller than the existing temporary screens, would be more centered than the existing temporary screens and would have a less intrusive mounting;

WHEREAS the screens would cut down on the amount of paper in the form of maps and other notices that the museum has been handing out; the screens would help visitors find their way around the museum;

WHEREAS given the location of the proposed screens, the disruption to the landmarked Great Hall is minimal;

THEREFORE, BE IT RESOLVED, that this application is **approved** as presented.

Please advise us of any action taken on this matter.

Sincerely,

Russell Squire
