WHEREAS the current OCM regulations do not comply with state legislative requirements, specifically the 500-foot door-to-door limitation for proximity to schools, which has been an ongoing point of concern for the Board; therefore

BE IT RESOLVED that Community Board 8 **DISAPPROVES** this application, and urges the Office of Cannabis Management to reconcile its regulations with existing state law and to ensure compliance in future licensing decisions.

Community Board 8 Manhattan approved this resolution by a vote of 30 in favor, 6 opposed, 5 abstentions, and 0 not voting for cause.

B. Landmarks Committee – Anthony Cohn, David Helpern and Jane Parshall, Co-Chairs

LM-1: Item 1
LM-2: Item 2
LM-3: Item 3

Item 1: 133 East 95th Street (Expanded Carnegie Hill Historic District) – Mark Bearak – A Neo-Federal style building designed by Frank Wennemer and constructed in 1889-90. Application is for modifying the original application for horizontal rear addition on each floor, interior wall reconfiguration, upgraded utilities throughout, addition of central CV via VRF system, renovation of rear yard, and direct replacement of front window. The new design is more modest in its approach by reducing the depth and number of floors in the addition.

WHEREAS this application modifies the application reviewed by Community Board 8 in September 2025 for the front and rear of the building; and

WHEREAS this application is limited to the rear of the building; and

WHEREAS the applicant stated that the staff at the LPC is reviewing the front of the building based on the September application and therefore had the front excluded from the current application; and

WHEREAS the new elevator proposed in the September application is moved towards the front of the building to facilitate a reduction in the size of the rear addition; and

WHEREAS the cellar floor, which contains habitable space, is extended below grade towards the rear property line; and

WHEREAS the outdoor stair from the first floor to the rear yard will be demolished; and

WHEREAS the basement floor of the addition will be 30 feet from the rear property line as opposed to just over 27 feet in the September application; and

WHEREAS the first-floor addition will be the same length as the basement; and

WHEREAS the second-floor addition will be set back from the first floor; and

WHEREAS the basement level of 131 is shorter than the basement level of 133 and the first floor is set back from the basement; and

WHEREAS the proposed three-story addition at 133 is larger than the existing two-story addition at 131; and

WHEREAS the proposed addition in the rear of 133 is larger than any addition approved since the establishment of the historic district; and

WHEREAS 135 does not have a rear addition; and

WHEREAS 131 and 135 have multilight windows; and

WHEREAS 133 is proposed to have multilight windows on the first and second floors to emulate the multilight windows in 131 and 135; and

WHEREAS the doors at basement level of 133 have large single sheets of glass; and

WHEREAS the multilight windows at 133 have larger panes of glass than those of the buildings either side and do not replicate the scale of the existing windows; and

WHEREAS 133 extends five feet in front of the building line of numbers 115 through 141; and

WHEREAS the September application proposed a fence in front to match the adjoining fences; and

WHEREAS the fence in front of 133 is a critical element in the overall composition because 133 is five feet forward of the line of buildings; and

WHEREAS the proposed fence should have been included in the current application and reviewed by CB8; and

WHEREAS the bulk of the proposed three-story addition in the rear of 133 is much larger than the two-story addition at 131; and

WHEREAS the scale of the proposed addition in the rear of 133 is disproportionate in relation to the adjoining buildings; and

WHEREAS the design of the façade of the proposed addition is not harmonious with the adjoining buildings; and

WHEREAS the proposed addition in the rear of 133 is not contextual or appropriate with the historic district;

THEREFORE, BE IT RESOLVED that this application is **DISAPPROVED AS PRESENTED**.

Community Board 8 Manhattan approved this resolution by a vote of 37 in favor, 2 opposed, 2 abstentions, and 0 not voting for cause.

Item 2: 168 East 75th Street (Upper East Side Historic District Extension) – Claude Hurt, Jr. RA – An Arts and Crafts style building designed by B. Muldron in 1880 and substantially altered in 1902. Application is for a 2-story vertical addition, façade alterations and restorations and the conversion of an existing 2-family residence to single family occupancy.

WHEREAS 168 East 75th street is the westernmost of a group of five residences built as speculative brownstones in 1880-81 and converted to “automobile stables” in 1902; and

WHEREAS this group formed the first group of private automobile garages in New York City; and

WHEREAS sometime between the 1940 tax photos and the District designation in 2010 the street facades underwent a variety of alterations while maintaining the basic character of the group; and

WHEREAS the applicant proposes to alter the street façade of 168 East 75th Street to align more closely with the alterations made to its neighbor, which includes the addition of windows flanking the central arched opening at the second floor; and

WHEREAS the applicant further proposes to remove air conditioning sleeves from the façade and to patch the brick with matching masonry units and to replace the existing windows with metal-clad wood matching the original muntin pattern; and

WHEREAS the applicant proposes to add a two-story rooftop addition, set back from the original gable, but visible from the public way with an overall height of 21 feet above the top of the original gable end; and

WHEREAS the applicant proposes a rear façade with no particular architectural merit and failed to show even a photo of the existing rear facade; and

WHEREAS Committee members stated their preference for historical accuracy by restoring the original window type and configuration over consistency with the near neighbor; and

WHEREAS Committee members recognized the continued unity of the five-building ensemble and found the proposal disturbed that unity; and

WHEREAS Committee members uniformly strenuously objected to the height, mass and fenestration of the proposed rooftop addition;

THEREFORE be it resolved that this application is **DISAPPROVED as presented**.

Community Board 8 Manhattan unanimously approved this resolution by a vote of 41 in favor, 0 opposed, 0 abstentions, and 0 not voting for cause.

Item 3: **1185 Park Avenue, Apt. #1AL (Expanded Carnegie Hill Historic District) – JP Fishman Architect PLLC – A Neo-Gothic style building designed by Schwartz & Gross and constructed in 1928-29. Application is for installation of a louver in place of the existing window and modification of existing door opening to a window.**

WHEREAS 1185 Park Avenue is a neo-Gothic style building designed by Schwartz & Gross and constructed in 1928-1929; and

WHEREAS 1185 Park Avenue is the only remaining grand courtyard apartment building on Park Avenue; the building's striking triple arch entrance with a rare porte cochere leads into a beautifully landscaped central courtyard; and

WHEREAS there is a window Master Plan for 1185 Park Avenue; replacement windows are aluminum, not wood; and

WHEREAS there are three components to this application: 2 louvered windows on East 94th Street plus a third opening on the interior courtyard; and

WHEREAS a louvered window presents as a full-width and full-height window that hides mechanical equipment; the actual louver is behind what appears to be a window but there is no glazing and in appearance is dark; there is a simulation of a window since the louvers are behind a perimeter frame; and

WHEREAS on East 94th Street, the applicant proposes to remove an existing door and replace with a louver; the space behind the door was formerly a doctor's office and will now be a bathroom; and

WHEREAS the new louver would present as a window with an 8-over-8 grid of a window applied to the louver; and

WHEREAS the intent is for the proposed louver to externally match in design the Window Master Plan for 1185 Park Avenue; and

WHEREAS to the east of the existing door, the 5th window to the east of the door at the ground floor — would also be converted to a louver; and

WHEREAS at the courtyard, the applicant proposes a pair of windows or punched openings to be cut into a brick wall — part of the interior courtyard facade; and

WHEREAS the new louvers would vent interior mechanical equipment; the openings would match in width and height Master Plan approved windows; and

WHEREAS replacing the door on 94th Street with a louver disrupts the continuity of the facade and the streetscape; and

WHEREAS the door and its stoop are part of the defining elements of this kind of building; the applicant could have a mock door and thus retain one of the visible attributes of 1185 Park Avenue; and

WHEREAS louvers should not be on the ground floors of any building; and

WHEREAS the lack of width on the courtyard wall where the punched opening for a pair of louvers to be added negates this solution for the venting of mechanical equipment; the width of the wall is too small for the openings; the openings will present as a pair of holes in the courtyard; and

WHEREAS even though there are existing louvers on the upper floors at 1185 Park Avenue, in elevation, they present as blanks; and

WHEREAS the window Master Plan allows aluminum windows; replacement windows in this magnificent Schwartz and Gross building must replicate the original historic wood windows; Community Board 8's Landmarks Committee is disappointed that they do not;

THEREFORE BE IT RESOLVED that this application is **DISAPPROVED** as presented.

Community Board 8 Manhattan unanimously approved this resolution by a vote of 29 in favor, 8 opposed, 3 abstentions, and 0 not voting for cause.

C. Transportation Committee – Craig Lader and Charles Warren, Co-Chairs

TR-1: Item 1
TR-2: Item 2

Item 1: Revocable Consent Request – 350 East 69th Street

WHEREAS the property owner at 350 East 69th Street is seeking a revocable consent to install a stoop and fenced-in area; and

WHEREAS the application would restore a stoop and fenced-in area, both of which existed when the townhouse was originally built before being removed in the 1940s; and

WHEREAS a trash enclosure would be included in the stoop beneath the stairs; and

WHEREAS the stoop would extend 6'10" beyond the property line, which would align with the neighboring townhouses where the original stoops still remain; and

WHEREAS the effective sidewalk clearance would be 5'3" where the existing tree pits are in place, similar to elsewhere along the block; and

WHEREAS the restoration of the original conditions of the townhouse's impacts on the sidewalk were deemed acceptable;

THEREFORE, BE IT RESOLVED, that Community Board 8 Manhattan **APPROVES** a Revocable Consent Application to install a stoop and fenced-in area at 350 East 69th Street.

Community Board 8 Manhattan approved this resolution by a vote of 24 in favor, 16 opposed, 0 abstentions, and 0 not voting for cause.

Item 2: A request to change parking regulations on the south side of East 62nd Street between the Queensboro Bridge exit and 1st Avenue from "No Standing 7AM to Midnight Except Sunday" to "No Standing Anytime"

Community Board 8 Manhattan voted to table this item by a vote of 22 in favor, 18 opposed, 0 abstentions, and 0 not voting for cause.

D. Sanitation and Environment Committee – Sahar Husain and Addeson Lehv, Co-Chairs

SE-1: Item 1

Item 1: Resolution urging New York State Legislators to support bill A1749S1464 the Packaging Reduction and Recycling Infrastructure Act.

WHEREAS, packaging makes up approximately 40% of the waste in New York State; and

WHEREAS, managing waste costs New York taxpayers hundreds of millions of dollars annually; and

WHEREAS, most plastic packaging is not recyclable, and reusable and refillable packaging systems are not widely available; and

WHEREAS, plastic causes serious pollution, including litter and the use of toxic chemicals, and reducing toxic chemicals means protection for communities and consumers; and

WHEREAS, companies that produce packaging should be responsible for the costs of managing packaging waste, not just taxpayers; and

WHEREAS, the Senate Bill 1464/Assembly Bill 1749 would reduce plastic packaging by 30% in 12 years; and

WHEREAS, the Senate Bill 1464/Assembly Bill 1749 requires remaining packaging to be recycled or reused effectively (75% rate); and

WHEREAS, enacting the Packaging Reduction and Recycling Infrastructure Act, pending in the New York Assembly and the New York Senate, would reduce waste, increase recycling rates, create jobs, reduce toxicity in packaging, provide millions of dollars in savings for local governments and taxpayers, and lower greenhouse gas emissions;

THEREFORE, BE IT RESOLVED Community Board 8 Manhattan urges the New York state legislature to pass and Governor Kathy Hochul to sign into law a strong and effective Packaging Reduction and Recycling Infrastructure Act, Assembly Bill 1749/Senate Bill 1464

Community Board 8 Manhattan approved this resolution by a vote of 27 in favor, 8 opposed, 3 abstentions, and 0 not voting for cause.

9. **Old Business** – No items of Old Business were discussed.

10. **New Business** – No items of New Business were discussed.

The meeting was adjourned at 8:38 PM.
