

December 24, 2024

Chair Valerie Mason
Manhattan Community Board 8
505 Park Avenue, Suite 620
New York, NY 10022

Dear Chair Mason,

Thank you again for the opportunity to meet with Community Board 8's Zoning, Development, and Housing Committee in November. We greatly value the board's engagement about our vision for Lenox Hill Hospital's future and look forward to sharing more detailed information about our reinvestment plans at the upcoming meeting on January 28th.

I wanted to inform you that we expect to submit our application to the New York City Department of City Planning in early January. After DCP makes the application available to the public, we will be prepared to address questions regarding the final application and provide a more detailed overview of our proposal at the January committee meeting as well as the board's meeting once the ULURP process begins.

We deeply appreciate the questions that board members and our neighbors have already submitted through our renewinglenox@northwell.edu email address. Please know that we will continue to welcome and respond to questions throughout the land use review process, as community input remains instrumental to how we shape the future of Lenox Hill Hospital.

Thank you again for your continued partnership in this important endeavor. I wish you and all members of Community Board 8 a joyous holiday season and a happy new year.

Sincerely,

Daniel Baker, MD
President, Lenox Hill Hospital
