# **SECTION 3: Material Requirements**

- to the category. If applicable, please confirm the materials comply with the Dining Out NYC requirements Please indicate which of the following materials will be part of your roadway cafe by checking the box and
- Refer to the les in the Dining Out NYC website for more information regarding materials

## Materials Checklist:

### Barriers

- Maintained on all sides of the cafe except the side fronting the ground floor restaurant.
- Not permanently affixed to the roadway.
- 30-42 inches tall (excluding planting), and at least 4 inches in width
- Barriers are interconnected with each other.
- Any cladding over the barriers is securely fastened or affixed
- Minimum 4 inches wide reflective strip on each barrier on the outward facing side
- Water-filled with a minimum of 150 pounds per linear foot of barrier length.
- If your proposed barriers will utilize fill materials other than water please check this box. This may require additional information from the applicant and further review by the Dining Out NYC team, as well as supporting DOT units and City agencies.

# \*Optional- Only check the material categories you intend to use in your roadway cafe.

#### Flooring

feet feet

feet feet

- Durable, lightweight, easily removable, mold-resistant, elevated from the ground level to allow for drainage, and removable to allow for cleaning.
- Flush with the curb line (except if located on a slope, be flush to the greatest extent feasible), and compliant with applicable accessibility requirements
- Maintains a 6 inch covered channel between curb and base of flooring to allow for drainage

### Furnishings

Lightweight and easily movable

## Vertical Screenings

- Located between the barrier and 6 feet above the cafe base or floor.
- Located on the roadway facing side, does not extend the beyond the perimeter of the roadway calle, and is not affixed to the outward facing side of barriers.
- Easily removable, comprised of non-opaque, fire-grade, and wind resistant materials.
- If within 50 feet of any regulatory or warning signs, does not exceed 46 inches in height

# Overhead Coverings/ Umbrellas

- Minimum of 7 feet and maximum of 10 feet from the base or floor of the roadway cafe
- Has a weighted base and any support structures are not affixed to the outward facing side of barriers, are of sufficient size and strength, made of durable materials, and free of defects.
- Easily removable, comprised of fire-grade and wind resistant materials
- If within 50 feet of any regulatory or warning signs, does not exceed 46 inches in height

# Lighting and Electrical Connections

- Any lighting is outdoor rated, properly secured, and light weight
- At least 14 feet above sidewalk, and 18 feet above roadway.
- Not attached to any City property, including street trees
- Electrical work complies with the applicable requirements set forth in the DOT's rules and the New York
- Please check this box if you are submitting additional documents for review. Documents may include technical drawings prepared by a licensed professional.
